Summary

Backend Engineer with around 3 years of experience building and scaling multi-tenant SaaS products using Java 21, Spring Boot, RabbitMQ, Redis and MySQL. Experienced in designing scalable microservices and distributed systems, event-driven architecture, asynchronous processing, API performance optimization, and cloud-native deployments across AWS, GCP and Azure.

Experience

[\[+More\]](#)

Uniquis Consultech Inc.

Bengaluru, Karnataka (Hybrid)

Software Development Engineer II

Oct 2023 – Present

- Designed a **queue-based, event-driven architecture** using **RabbitMQ** to decouple 8+ microservices, eliminating synchronous coupling on the critical path, improving API p95 response time by 35%.
- Owned the design and implementation of **GCP, AWS, and Azure** adapters for the platform's storage and messaging abstractions — reduced cloud onboarding time for new deployments from about 2 weeks to 3 days.
- Built a resilient cloud-agnostic data ingestion framework **supporting asynchronous file processing, queue-based orchestration, DLQs, validation, and fault-tolerant** recovery across 10+ document templates.
- Introduced **Redis caching** to optimize high-traffic endpoints, reducing system load by 40% and cutting average response times by 60%.
- Tuned **MySQL** query performance via **index redesign** and read-replica routing for read-heavy endpoints, cutting p95 query latency by approximately 45%.
- Expanded automated unit testing using **JUnit 5** and **Mockito** for **30+ critical REST endpoints**, increasing release confidence and enabling faster production deployments.
- Rebuilt **Jenkins CI/CD** pipelines with build caching and parallel test execution, cutting build-and-deploy time from about 30 minutes to 4 minutes and enabling daily releases.
- Architected a pluggable connector framework integrating **Oracle NetSuite, OneDrive, SEC.gov, and Zoho** with standardized authentication, pagination, retries, and data transformation, enabling rapid onboarding across 3 product lines.
- Contributed to establishing backend engineering standards under guidance, covering **structured logging, OpenTelemetry instrumentation, resilient exception handling, and production readiness** during code reviews, contributing to a **25% reduction** in production incidents over two quarters.
- Developed 10+ critical product features** using **React** and **TypeScript**, integrating frontend modules with **Java/Spring Boot REST APIs**.

Tata Consultancy Services

Pune, Maharashtra

Project Intern

Feb 2023 – May 2023

- Drove 2 proof-of-concept implementations of **Server-Driven UI** for a Connected Car Cockpit system, evaluating multiple Android UI rendering libraries to identify the best fit for in-vehicle interfaces.
- Integrated **AOSP**(Android Open Source Project) host-app components and evaluated 3+ Android UI rendering libraries, gaining hands-on exposure to in-vehicle Android architecture and Server-Driven UI patterns.

Skills

Languages/Frameworks: Java 21, Spring Boot, Spring Security, Spring Data JPA, Hibernate, Python/Django, C++.

Design & Architecture: Microservices, Event-Driven Architecture, Distributed Systems, Cloud-Agnostic Patterns.

Tools & DevOps: Git, Maven, GCP (Pub/Sub, Cloud Functions, Storage), AWS, Azure, Docker, Kubernetes, Jenkins CI/CD.

Database & Messaging: MySQL, MongoDB, Redis, RabbitMQ, Flyway.

Testing, Quality & Observability: JUnit 5, Mockito, OpenTelemetry, SigNoz, Postman, SonarQube.

AI-Assisted Development: Claude Code, OpenAI Codex, GitHub Copilot.

Education

Medi-Caps University

Indore, Madhya Pradesh

Bachelor of Technology in Computer Science - GPA: 8.89

Aug 2019 – May 2023

Achievements

- Achieved **5-star** rating on [CodeChef](#) with a peak rating of 2048 and a global rank of 966 / 215K users.
- Google Hash Code — **Global Rank 1063** (Qualification Round 2022) and **Rank 1572** (Qualification Round 2021).
- Solved **800+** competitive programming problems and participated in 100+ rated contests across [CodeChef](#), [LeetCode](#), and Codeforces.

Certifications

- [Cisco Certified Networking Academy](#) | [AI A-Z \[2026\]: Agentic AI, Gen AI, Prompt Engineering and RL\(Ongoing\)](#)
