Experience

Uniqus Consultech Inc.

Software Development Engineer

Mumbai, Maharashtra

Oct 2023 – Present

GRC SYSTEM - GOVERNANCE, RISK & COMPLIANCE

- Led the development and implementation of 5+ **Spring Boot** microservices using **Kubernetes & Docker** on **Google Cloud Platform (GCP)**, boosting modularity, deployment efficiency by 35%, and system performance by 50%.
- Enhanced **CI/CD** pipeline using **Jenkins**, reducing build and deployment time by 90% and accelerating release cycles.
- Developed **50+ REST APIs** for **system interaction**, enabling **data exchange, app integration**.
- Integrated **Databricks**, enhancing **data visualization** & cutting report time by 30%, streamlining **data analytics**.
- Implemented **Redis caching** to optimize web traffic and data processing, reducing response time by 80%, increasing data accuracy by 40%, and enhancing system performance, scalability, and efficiency.
- Refactored utilities for data processing from Excel & PDF, enhancing **automation** and increasing **accuracy** by 40%.
- Utilized Google Cloud Services(Storage, Cloud Functions, Pub/Sub) to build a scalable system, enhancing performance.
- Collaborated with 12-member team, ensuring timely project delivery through seamless coordination.

UNIQUIS CONNECTORS

- Developed cross-platform connector system integrating **Oracle NetSuite, Microsoft OneDrive, SEC.gov**, and **Zoho**, optimizing data retrieval processes.
- Boosted data processing capabilities using **Amazon SQS**, reducing latency and optimizing resource utilization.
- Streamlined collaboration with **2+ ERP systems**, enabling efficient **data integration** and **retrieval processes**.

Technical Skills: Java, Spring Boot, Google Cloud Platform(GCP), Amazon Web Services(AWS), REST APIs, MySQL, Flyway, MongoDB, Docker, Redis, Databricks.

Tata Consultancy Services

Project Intern ([Completion Certificate](#))

Pune, Maharashtra

Feb 2023 – May 2023

- Conducted 2 **PoCs** for **Connected Car Cockpit Systems** with **Server-Driven/Dynamic UI**, focusing on **scalability, performance optimization, system integration**, and **user experience**.

Technical Skills: Java, Python, OpenCV, NodeJS, Android Studio, Flipkart Proteus, Kotlin, Android Open Source Project.

Education

Medi-Caps University

Bachelor of Technology in Computer Science - GPA: 8.89

Indore, Madhya Pradesh

Aug 2019 - May 2023

Skills

Languages/Frameworks: Java/Spring Boot, Python/Django, C++, HTML/CSS, JavaScript, Temporal Workflows.

IT Constructs: Data Structures and Algorithms, Object Oriented Programming, DataBase Management System.

Developer Tools: Git, Docker, Kubernetes, Jenkins, Postman, Jira, VS Code, IntelliJ IDEA.

Database Technologies: MySQL, Databricks, MongoDB, Redis

Projects

Code Together | *Django, HTML, CSS, JavaScript, AJAX, Bootstrap, SQLite*

[Live Demo](#) | [Source Code](#)

- Built a feature-rich Blog App with posting, commenting, & real-time collaboration, boosting user engagement by 30%.
- Leveraged AJAX and JSON to implement asynchronous data transfer, reducing load times by 30% & enhancing user satisfaction.

Achievements & Participations

Competitive Programming Platforms:

- Achieved **5* Code status** on [CodeChef](#) with a peak rating of **2001**, global rank **2343** out of **215K** users.
- Secured **Rank 1** in College Batch 2k19-23, & actively pursuing advancement on [CodeForces](#) with a rating of **1336**.
- Solved **800+** coding problems collaboratively on all coding platforms, engaging in **75+ weekly contests**.

Certifications

- [Cisco Certified Networking Academy](#)
- [Data Structures and Algorithms](#)
